DVV International
in Central Asia

20th anniversary of DVV International in Kyrgyzstan

DVV International has been supporting adult learning and education (ALE) in Kyrgyzstan since 2002, with a country office established in Bishkek in 2012. Since 2018, the country office has also functioned as DVV International's Regional Office for Central Asia. This year, DVV International is celebrating its 20th anniversary in Central Asia.

DVV International's projects are aimed at reducing poverty and improving the lives of vulnerable populations. This is achieved, for example, through various consultations, trainings in personal development, and vocational skills development. The topics of newly developed educational offers range from civic education and re-socialisation of incarcerated persons and persons post-release into the society, empowerment of women, youth, and people with disabilities.

DVV International is also engaged in supporting the training and re-training of local adult education personnel, publication of informational material and curricula, and fostering the organisational development and sustainability of local partner organisations.

To advance framework conditions for adult learning and education, DVV International also promotes dialogue with political decision-makers and policy development initiatives in Kyrgyzstan, Tajikistan, and Uzbekistan. All projects are implemented through state- and non-state partners and networks with the financial support of the German Federal Ministry of Economic Cooperation and Development (BMZ), the European Union, the German Federal Foreign Office, and other donors.
