DVV International in Kyrgyzstan

Since 2002, DVV International has supported adult education learning and education (ALE) in Kyrgyzstan; a country office was opened in Bishkek in 2012. Since the year 2018 the Country office performs the function of the regional office for Central Asia as well.

Kyrgyzstan is one of a group of countries with “medium-level human development”. Through courses for non-formal vocational and civic education, DVV International supports socially disadvantaged groups in Kyrgyzstan, including the unemployed, prisoners, socially disadvantaged young people and women. The country office also further strengthens the capacity of adult education providers, thus contributing to improving the quality of adult education in the country and expanding of ALE offers. Through policy advice, the conducting of research studies, and the transfer of German and European practices in the field of adult education and lifelong learning, it also contributes to the sustainable improvement of the framework of the education sector in Kyrgyzstan.
